No storage accounts to display

Create a storage account to store up to 500TB of data in the cloud. Use a general-purpose storage account to store object data, use a NoSQL data store, define and use queues for message processing, and set up file shares in the cloud. Use the Blob storage account and the hot or cool access tiers to optimize your costs based on how frequently your object data is accessed.

Create a storage account

manage your storage account together with other resources.

Subscription * Free Trial

Resource group * (New) demo Create new

Instance details

Storage account name * ① kavin

Region * ① (Asia Pacific) Central India Deploy to an Azure Extended Zone

Primary service ① Select a primary service

Performance * ① ☒ Standard: Recommended for most scenarios (general-purpose v2 account) ☐ Premium: Recommended for scenarios that require low latency.

Redundancy * ① Geo-redundant storage (GRS)

☒ Make read access to data available in the event of regional unavailability.
